

【High Brightness COB Strip Lights】 COB LED strip light adopts the latest form of LED technology, multiple led chips are mounted on the PCB board, the light source is more concentrated, so as to achieve higher brightness.

【Premium Quality, Bright and Long】 AC 110-120V Input, super brightnes, high-density 10W/m,Suitable for lighting projects that need long and premium LED strip.

【Free to bend and easy to install】 Compared to normal LED strips, cob light strip are more flexible and you could easliy bend it to shapes you want and make corners. It can be cut along the cutting marks between every 10cm to fit your project.

【Waterproof design for wide Application】 Waterproof IP67 level allows it to beautify both indoor and outdoor lighting scenes. Ideal choice for highlighting landscape building decoration, such as living room, kitchen, under cabinet, backyard, deck, KTV, bars, stairway, weddings, holidays, and celebrations.

【No soldering needed after cutting】 With every 9.8" cuttable, No soldering needed after cutting, with " Clip on connector" makes more safe and efficient in connection.

•Spec.:

Name: COB LED Rope Lighting

Working Voltage: AC 110V-120V

Case color: Transparent White

Light Source: COB LED Chip

LED Qty: 360pcs/M

Power: 10W/M

RA>80

Protection Level: Waterproof IP67 Color

temperature: Warm white(3000K)

Working Temperature: -20°C to 50°C

Cutting Unit Length: by every 9.8"

Dimension: Width: 0.48" x Height:

0.27" Length: 50ft/ Roll
